EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science | University of Lethbridge (Lethbridge, AB)

- Dean's List Academic Achievement Award.
- Related Courses: Economics, Accounting, Statistics, Calculus, Programming, Databases

Certifications

- Canadian Investment Funds Course (Ongoing)
- Cisco Certified Network Associate
- PL-300 Microsoft Power BI Analyst.

SKILLS

Financial Analysis	SQL	Tableau/Power Apps	MS Office
Risk & Credit Assessment	Power BI	Relationship Management	Dynamic communication skills
Investment Solutions (IFIC/IFC)	Excel	Cross-functional Collaboration	Strong administration
CRM & PSP Databases	Python	ETL/Data Pipelines	Planning and Time management skills

WORK EXPERIENCE

AI Trainer & LLM Evaluation Specialist

DataAnnotation (Remote, Canada)

April 2026 - Present

- Improved model logic and coding accuracy by performing rigorous technical reviews of AI-generated solutions in Python and C++, resulting in higher-quality, production-ready software outputs.
- Refined model training frameworks by aggregating and interpreting large-scale datasets, which led to a significant reduction in logical reasoning gaps and hallucination rates.
- Enhanced system robustness by designing multi-variable prompt engineering tests for edge cases and asynchronous operations, which improved the model's performance on complex algorithmic requirements.
- Strengthened technical precision by defining and implementing strict evaluation rubrics, resulting in consistent adherence to enterprise-grade factual and structural benchmarks.

Data Analyst Intern

Balaji Technocast Ltd. (Remote, India)

Apr 2024 - Jan 2025

- Designed and implemented backend data pipelines using Python, SQL, and PostgreSQL to process financial and operational datasets, improving data accuracy by 75% and supporting scalable business decision-making.
- Developed and optimized APIs and database queries for cross-functional teams (Finance, Marketing, Operations), enabling seamless integration of business insights into reporting systems and reducing processing time by 30%.
- Collaborated with Wealth, Commercial Banking, and Operations teams to identify referral opportunities and deliver holistic financial solutions, contributing to business growth targets.

IT Network Analyst (Co-op Work Experience)

Alberta Health Services - Chinook Regional Hospital (Lethbridge, AB)

Sep 2023 - Dec 2023

- Resolved Windows-based system, Cisco system & internet issues for 100+ end-users, reducing downtime by 90% & increasing productivity by 15%.
- Managed Cisco hardware inventory, improving tracking accuracy by 20% & cutting duplicate spending by at least \$5,000.
- Configured & deployed 40+ Cisco routers, supporting a 30% improvement in project launch efficiency.
- Provided analytical support & resolved over 10 technical issues daily for Windows users, enhancing user satisfaction by 30% & reducing ServiceNow tickets by 20%.

PROJECT EXPERIENCE

Tata Data Visualisation: Empowering Business with Effective Insights Job Simulation on Forage

April 2025

- Completed a simulation involving creating data visualizations for Tata Consultancy Services.
- Prepared questions for a meeting with client senior leadership.
- Created visuals for data analysis to help executives with effective financial & strategic decision making.

Adventure Works Bike Shop Power BI Dashboard | Power BI Analyst |

Nov 2024 - Present

- Built an interactive Power BI dashboard for strategic & financial decision-making using key business KPIs.
- Designed DAX models to generate insights, improving product & category-level sales analysis.
- Deployed machine learning solutions on AWS cloud infrastructure, leveraging Docker and CI/CD principles to ensure scalability, system reliability, and long-term maintainability.

Machine Learning Projects

Aug 2023 - Present

- Developed regression models achieving 85-92% accuracy for real-world applications.
- Utilized Python libraries (NumPy, Pandas) to improve data processing efficiency by 15%.
- Applied object-oriented programming principles (Python, C++) and Git-based workflows to build modular, maintainable codebases, while contributing to process improvements in Agile development environments.

LEADERSHIP EXPERIENCE

Disability Support Worker

Peak Support Works (Lethbridge, AB)

Jun 2023 - Present

- Assisted a team individuals with special needs in achieving personal goals, improving independence by 15%.
- Developed personalized care plans, enhancing emotional & behavioral support outcomes by 20%.
- Facilitated community engagement initiatives, increasing social interactions by 30%.
